EDUCATION

Columbia University Feb 2026
- Master of Science in Enterprise Risk Management
- Coursework: Coding for Risk Management, Quantitative Risk Management, Financial Risk Management

University of Texas at Austin, McCombs School of Business Dec 2023
- Bachelor of Business Administration in Management Information Systems
- Coursework: Database Management, Predictive Analytics/Data Mining, Statistics & Modeling
- Honors: Dean's List and University Honors (3 semesters)

PROFESSIONAL EXPERIENCE

E Fund Management - *Financial Data Analyst;* Guangzhou, China Dec 2025 - Jan 2026
- Built an automated workflow to collect and process 70,000 quarterly, semiannual, and annual reports from 10 leading Chinese mutual fund managers, reducing a 20-day manual process to 2 days.
- Cleaned and standardized proprietary capital disclosures from 2021 to 2025 into a unified dataset, reconciling inconsistent reporting categories to enable cross-firm comparison.
- Analyzed shifts in proprietary capital strategies and presented case-study findings to senior leadership on liquidity management, asset allocation, and risk appetite.

Pronghorn - *Finance Intern;* New York, NY Jun 2025 - Aug 2025
- Analyzed $300,000–$400,000 in monthly travel and expense (T&E) spending using Excel PivotTables and built Datarails dashboards to track spending trends across departments.
- Reconciled monthly general ledger expense accounts against Uber for Business receipts and Rippling records, investigated discrepancies, and prepared reconciliation reports for review.
- Created centralized SOPs in Google Sites covering Navan, Uber for Business, and the company's Travel and Expense policies to standardize expense procedures.

Alibaba Group - *Data Analyst;* Hangzhou, China Jun 2022 - Aug 2022
- Used SQL and Python to analyze 50,000 transaction and user interaction records, identifying revenue drivers and conversion bottlenecks across live-streaming channels.
- Analyzed cohort retention and customer lifetime value (LTV) to assess promotional spending efficiency and support marketing budget allocation.
- Compared Taocaicai, Alibaba's community grocery e-commerce platform, with competitors on unit economics, supply chain costs, and resource allocation to identify sources of margin pressure.

Hithink RoyalFlush Information Network - *Data Analyst;* Hangzhou, China May 2021 - Jul 2021
- Used SQL and Python to analyze trading records, tracking user activation, conversion to first trade, portfolio turnover, and holding periods, and prepared weekly reports summarizing trading activity and key trends.
- Designed automated data quality rules for trading datasets to filter out erroneous trade records, duplicate fills, and off-session executions, while optimizing SQL queries and table partitioning to accelerate reporting workflows.

ACADEMIC PROJECTS

NVIDIA Scenario and Sensitivity Analysis - *Capstone Project* Fall 2025
- Built a scenario model to compare 16 combinations of GPU demand and tariff assumptions, translating changes in revenue, pricing, and operating costs into free cash flow and enterprise value.
- Performed sensitivity analysis across average selling prices, segment growth, R&D, and SG&A to identify the business drivers with the largest impact on financial outcomes.
- Compared scenario results against a baseline to quantify downside exposure and evaluate how changes in key assumptions affected company performance.

BevoBnB Web Development - *Web Application Development Project* Fall 2021
- Built a C#/HTML lodging and vacation rental web app with a 3-person team, mapping user flows and prioritizing core features to optimize site usability.
- Wrote SQL views to track hospitality metrics such as occupancy rate, average daily rate (ADR), cancellation rate, and booking lead time segmented by host and region.
- Surveyed 30 potential users, analyzed their feedback, and updated the codebase to directly address usability gaps.

SKILLS

- **Technical:** SQL, Python (pandas, NumPy), Excel (PivotTables), Tableau, Power BI, Datarails, SQL Server
- **Analytics:** Data Cleaning and Validation, KPI Reporting, Cohort and Funnel Analysis, Data Reconciliation, Data Visualization
