EDUCATION

Columbia University Feb 2026

- Master of Science in Enterprise Risk Management
- Coursework: Financial Risk Management, External Stakeholder Requirements, Quantitative Risk Management, Value-Based ERM, Coding for Risk Management

University of Texas at Austin, McCombs School of Business Dec 2023

- Bachelor of Business Administration in Management Information Systems
- Coursework: Financial Accounting, Managerial Accounting, Business Finance, Statistics and Modeling
- Honors: Dean's List and University Honors (3 semesters)

PROFESSIONAL EXPERIENCE

E Fund Management - *Finance Transformation Analyst;* Guangzhou, China Dec 2025 - Jan 2026

- Analyzed public disclosures from 10 leading Chinese mutual fund managers covering 2021 to 2025, comparing capital deployment, asset allocation, and liquidity positioning.
- Built a Python workflow to process more than 70,000 fund reports, standardize proprietary capital disclosures, and validate data for comparison across firms.
- Compared net purchases and portfolio composition across reporting periods and prepared peer reports for senior leadership on changes in investment activity.

Pronghorn - *Finance Intern;* New York, NY Jun 2025 - Aug 2025

- Reconciled monthly general ledger expense accounts against Uber for Business receipts and Rippling records, investigated discrepancies, and prepared reconciliation reports.
- Analyzed $300,000 to $400,000 in monthly travel and expense activity using Excel and Datarails, tracking departmental spending, recurring cost drivers, and month-over-month changes.
- Created an internal expense guide in Google Sites covering Navan, Uber for Business, and company policies, reducing weekly expense-related inquiries by more than 80%.

BDO China - *Audit and Assurance Assistant;* Shanghai, China Jul 2021 - Sep 2021

- Reviewed more than 40 contracts and related financial records for payment terms, cash commitments, and counterparty obligations relevant to short-term liquidity.
- Examined 200 journal postings and supporting records to analyze cash movements, working capital activity, and transaction timing.
- Supported a court-supervised bankruptcy asset sale by analyzing auction results and buyer payments to assess recovery proceeds and the timing of cash realization.

ACADEMIC PROJECTS

NVIDIA Value-Based Enterprise Risk Analysis - *Capstone Project* Fall 2025

- Built a value-based enterprise risk model linking NVIDIA's revenue, pricing, and operating costs to cash flow and company value.
- Analyzed downside, moderate, and upside scenarios for lower GPU demand and U.S. tariffs, export controls, and compliance restrictions, comparing value impacts with project-defined risk limits.
- Tested mitigation strategies for lower GPU demand, reducing the modeled standalone worst-case loss from 29.6% to 14.8% of baseline company value.

Global Payments Enterprise Risk Quantification - *Value-Based ERM Project* Spring 2025

- Assessed how merchant defaults on chargeback reimbursements could affect liquidity and cash flow within a broader assessment of 10 financial, operational, and strategic risks.
- Built a 20-year DCF model with a $23.9 billion baseline company value to quantify 15 scenarios covering fraud, macroeconomic conditions, technology failures, competition, and equity dilution.
- Mapped scenario assumptions to payment volume, pricing, operating expenses, and client churn to assess changes in cash flow, earnings per share, and company value.

SKILLS

- **Credit and Financial Analysis:** Financial Statement Analysis, Cash Flow Analysis, Ratio Analysis, Liquidity Analysis, Credit Risk
- **Risk and Modeling:** Scenario Analysis, Stress Testing, Sensitivity Analysis, DCF Modeling, Credit Migration Analysis, Value at Risk, Expected Shortfall
- **Reporting:** Reconciliation, Data Validation, Management Reporting, Risk Reporting
- **Tools:** Excel (PivotTables, Financial Modeling), SQL, Python, Bloomberg, Datarails, Tableau, Power BI
- **Languages:** English (Fluent), Mandarin Chinese (Native)
